**Subject:** FW: [External] Fuel cells and hydrogen infrastructure fit with the VW settlement, HB 589, and getting Duke Energy on track  
**Attachments:** Millin-Cooper 11.17.17 HB 589 VW FCH2 Ltr.pdf

Hello:

Mr. Grant Millin called this afternoon seeking public records or information about the Governor's plans to develop policy on energy and climate change. He has sent this email and has previously copied the Governor's Office on previous emails he has sent to NCDEQ. I transferred his call to Scarlett.

Thank you!

Kristen Johnson

To the Governor's staff,

I went to a great deal of trouble to generate the attached letter on where fuel cells and hydrogen infrastructure (FCH2) fit with issues like the VW settlement, HB 589, and getting Duke Energy on track. I am nearly certain there is no one covering FCH2 with the governor, NCLEG, and NC DEQ.

I am not paid to lobby the governor. I am merely one of his highly educated and capable citizens. I expect to be involved in our state energy and climate solutions too and am developing my own nonprofit and consulting firm.

I would greatly appreciate hearing back on the governor's position given my effort as to where the solutions I provide fit with State of North Carolina strategy.

Best wishes.
